

Concrete Crevice depth and width detector

Product name : **Concrete Crevice depth and width detector**

Item : **F71**

Details :

Application

F71, an intelligent ultrasonic velocity in concrete. crack depth and width detector, using a new generation ARM high-speed processing platform. It not only can detect the width and depth in different material (such as concrete), also can detect

Features

- 1, Large color LCD screen 5", Resolution: 640*480
- 2, Automatic interpretation
- 3, Variety of interpretation methods
- 4, Max detect depth: 650mm
- 5, Special scale, Portable and practical, improve the test efficiency
- 6, Convenient data transmission, connect with computer, transmit pictures and data
- 7, Analyze test data of the software

Technical Parameter

- 1, Measuring range of width: 0-8mm
- 2, Accuracy: 0.01
- 3, Large capacity of storage: 100,000 group detect picture or data
- 4, Measuring range of depth: ≤ 650 mm
- 5, Tolerance of detecting depth: $\leq 10\%$
- 6, Tolerance of detecting width: 0.01mm
- 7, Test data storage: 6000 group testing data
- 8, Built-in rechargeable lithium battery, can work 8 hours continuously
- 9, Work temperature: $10^{\circ}\text{C} \sim +50^{\circ}\text{C}$
- 10, Weight: 960g
