

JET 4 SOLVENT CLEANER ODORLESS

JET 4 is a peculiar mixture, especially developed, of aliphatic petroleum solvents. It has replaced chlorinated solvents like perchloroethylene, trichloroethylene, methylene chloride, white spirit, aromatic naphta and similar solvents with full satisfaction of users and safety people.

JET 4 offers following benefits:

- low odor
- low hazards
- low toxicity
- leaves no residue
- high flash point

It does not attack steel and aluminum alloys, rubber, synthetic rubber, insulating materials.

It is very useful in close room where its low toxicity and volatility allow to be used spray or in still tank.

Evaporation rate may be increased by stream of pressure air.

Main characteristic are:

Apparance	clear liquid
Odor	negligible
Flash point	53°C. (Closed Cup)
Residue	none

USE INSTRUCTIONS

JET 4 is used as received, at room temperature by *DIP, SPRAY GUN, BRUSH, CLOTH / HAND, AGITATED DIP TANK, ULTRASONIC EQUIPMENT* as:

SOLVENT CLEANER : to clean steel, iron, aluminum, equipments, etc.

SOLVENT of : greases, waxes, polishes, oils, rust preventives, etc.

THINNER for : greases, inks, enamels, etc.

CAUTION

See Safety Data Sheet for further informations.
