

TECHNICAL DATA SHEET – NewPro Graffiti GUARD Magic Clear/Gloss/ Colour

ANTI GRAFFITI Coating washable usage

DESCRIPTION:

NewPro Graffiti GUARD Magic Clear/ Gloss /Colour coating is a special outer coating which provides an effective protection against unauthorised billposting and graffiti.

Available in the RAL Colour Chart colours as NewPro Graffiti Guard Magic COLOUR.

ADVANTAGES:

Only one coating is necessary so that graffiti doesn't adhere to the treated surface. Graffiti can be removed quickly and simply from the dry surface with warm soapy water. A second application is not necessary.

USAGE:

Most surfaces can be protected with just one coat of NewPro Graffiti GUARD Magic Clear, providing a quick application and protection against graffiti and unauthorised billposting.

AVAILABLE COLOURS:

Clear Gloss or Clear Satin finish or Graffiti protection integrated in a RAL Colour.

PACKAGE SIZE:

Single component product, packed in 5 litre canisters.

VOLUME SOLIDS:

70%

COVERAGE RATE:

Single coating @ 8-10 m² / Litre

DRYING TIME:

Hand Dry:.....1-2 hours.

Fully Hardened:.....6 hours.

PREPERATION:

The surface to be treated must be clean, free from impurities and dry. To avoid darkening of concrete surfaces and when applied on porous surfaces we recommend that the surface is first covered with a coating of NewPro Primer as adhesive primer.

APPLICATION:

With brush /roller or by spraying. Not to be applied at temperatures under +5 °C or air humidity of more than 85%.

MAINTENANCE OF EQUIPMENT:

All equipment should be cleaned with benzine after use.

STORAGE:

Avoid direct sunlight and heat sources. Protect from frost. Protect canisters from moisture.

STORAGE LIFE:

12 Months (in closed original container).

WORK SAFETY:
